Lifetime Income With Fewer Compromises

ANNUITIES | VARIABLE

FlexChoice Access

A VA Rider

Variable annuities are issued by, and product guarantees are solely the responsibility of, Brighthouse Life Insurance Company and, in New York only, by Brighthouse Life Insurance Company of NY ("Brighthouse Financial"). All variable products are distributed by Brighthouse Securities, LLC (member FINRA). All are Brighthouse Financial affiliated companies.

Consider a Protected Income Strategy

A Brighthouse Financial variable annuity with the optional FlexChoice Access¹ living benefit rider lets you turn a portion of your retirement savings into guaranteed income that lasts for life.

What is a variable annuity?

A variable annuity (VA) is a financial tool that turns a portion of your savings into a **reliable income source** for retirement. It's one of the only types of financial tools that **guarantees** income for life, no matter how long you live. The money is invested in investment options that have the potential for tax-deferred growth² (meaning you don't pay taxes on earnings until they're withdrawn). That's where the "variable" part comes in: the account value can vary depending on how those investment options perform.

And what's a rider?

Riders are optional add-ons that can be purchased with a VA that provide extra benefits. Living benefit riders commonly help **during retirement** with things like providing income and ensuring it lasts for life. FlexChoice Access is a living benefit rider available on Brighthouse Financial[®] variable annuities.

¹ FlexChoice Access is referred to as the Guaranteed Lifetime Withdrawal Benefit (GLWB) in the prospectus and is available for an additional annual charge.

² If you're buying a variable annuity to fund a qualified retirement plan or IRA, you should do so for the variable annuity's features and benefits other than tax deferral. In such cases, tax deferral is not an additional benefit of the variable annuity. References throughout this material to tax advantages, such as tax deferral and tax-free transfers, are subject to this consideration.

How FlexChoice Access Can Grow and Protect Income

Annual Compounding

FlexChoice Access uses a **Benefit Base** to determine future lifetime income. The Benefit Base cannot go down because of market losses, but it can grow. The initial investment determines the Benefit Base, which compounds at 5% for the first 10 contract years in years where there are no withdrawals taken, regardless of what happens in the market or to the account value.³

What does 5% compounded annual growth look like?

A Benefit Base of \$100,000 would grow to \$162,889 regardless of market conditions, provided no withdrawals are taken during the first 10 contract years.

Contract Anniversary	Benefit Base
Issue	\$100,000
01	\$105,000
02	\$110,250
03	\$115,763
04	\$121,551
05	\$127,628
06	\$134,010
07	\$140,710
08	\$147,746
09	\$155,133
10	\$162,889

³ Annual Compounding is referred to as Rollup Rate in the prospectus and contract. The Benefit Base is not available as a lump-sum withdrawal or payable as a death benefit. The contract's account value under the FlexChoice Access rider represents the value of your investments adjusted for performance less withdrawals. Contract and rider fees will also reduce the account value, but do not reduce the Benefit Base. See the prospectus for more details.

Automatic Step-Ups

You can capture market gains through **Automatic Step-Ups** of your Benefit Base if the account value increases and is greater than the Benefit Base on any contract anniversary prior to your 91st birthday.⁴

What does an Automatic Step-Up look like?

⁴ Upon step-up, the annual charge may increase to the rate applicable to new annuity purchasers, but will not exceed a maximum of 2.00% of the Benefit Base.

Income Ever After

Marriage is full of compromises, but lifetime income doesn't have to be one of them. FlexChoice Access was designed to address the key concerns of married couples by providing flexibility that not all optional lifetime withdrawal riders can offer.

More Income Sooner

Unlike many lifetime withdrawal riders, with FlexChoice Access, the amount of income received is based on the **age of the older owner**.

87% of married couples
have an age difference.
The average age
difference is **2.3 years**.⁵

This can mean getting a higher withdrawal rate sooner instead of waiting years for the younger spouse to "catch up" to a minimum age. **With FlexChoice Access, the initial withdrawal rate is the same for married and single clients.**⁶

⁵ Spousal Demographics Source: U.S. Census Bureau, 2013. www.census.gov

⁶ Initial withdrawal rate refers to the rate established by the first withdrawal after age 59½ (age 59½ of the older owner if jointly owned) and prior to the contract's account value reducing to zero. If the account value reduces to zero due to market performance or an allowable withdrawal, you can elect to receive income for one or two lives based on the applicable Lifetime Guarantee Rate. The Joint Lifetime Guarantee Rate is less than the Single Lifetime Guarantee Rate.

Fees and Charges

Our goal is to be transparent in explaining the fees that may apply to your variable annuity.

Standard Fees and Charges

Type	Amount	Definition
Annual Contract Fee	\$30	Covers contract maintenance and is deducted on the contract anniversary. Waived if the contract value is \$50,000 or more.
Mortality and Expense and Administration Charge	1.30%	Covers the insurance company's cost for guaranteeing to provide lifetime income annuity payments or a standard death benefit if the unexpected happens.
Fund Expense Fee	0.52 – 1.24%	Similar to the charges assessed by mutual fund companies for managing mutual funds, these fees are imposed at the fund level and pay the investment firm for the fund manager's expertise and other expenses.

Fees and Charges for Optional Features

Type	Amount	Definition
FlexChoice Access Living Benefit Charge	1.35%	Pays to ensure lifetime income payments off of the Benefit Base, regardless of the performance of the investments selected. May be increased if Automatic Step-Ups occur, but will not exceed 2.00%.
FlexChoice Access Death Benefit Charge	0.65%	Pays for additional protection. May be increased if Automatic Step-Ups occur, but will not exceed 1.20%.
Withdrawal Charge	0 – 7%	<p>The insurance company may impose a Withdrawal Charge on any amount that exceeds the annual Free Withdrawal Amount in the first years of the contract for each purchase payment. The charge declines over time and disappears after a certain number of years.</p> <p>Example: 7%, 6%, 6%, 5%, 4%, 3%, 2%, 0%.</p>

This is a summary only. Please read the prospectus for complete details.

How FlexChoice Access Works

Meet Carl and Beth Taylor

Carl and Beth are married, ages 56 and 54, respectively, and plan to retire in 10 years. They talk with their financial professional about designing a protected income strategy that can provide guaranteed lifetime income, the potential for market growth, and the flexibility to adapt should their needs change. They decide to invest \$100,000 in a Brighthouse Financial variable annuity and elect the optional FlexChoice Access living benefit rider.

Retirement Income Milestones

To see how a Brighthouse Financial variable annuity with the optional FlexChoice Access rider can help Carl and Beth in retirement, **complete this worksheet by referring to the illustration on the right.**

						For Life			

charges for optional living and/or death benefits, as applicable. This return also reflects the impact of the cash flows for the period, including additions for purchase applicable Withdrawal Charges.

for a variable annuity with: Mortality and Expense and Administration Charge of 1.30%, FlexChoice Access rider charge of 1.35% of the Benefit Base, Annual Contract would apply if withdrawals exceed the contract's annual Free Withdrawal Amount. The effects of income taxes have not been reflected in this example. Please refer to objectives, risks, and policies of the underlying portfolios.

Open for
a Closer
Look at
FlexChoice
Access.

Choose Between Two Withdrawal Options

Select the withdrawal option that fits your needs. The amount available for withdrawal is based on the age of the owner, or older owner if jointly owned, at the time of the first withdrawal after age 59½.

Level

FlexChoice Access Level provides a level amount of payments for your lifetime – guaranteed. Even if the account value reduces to zero, you'll still receive the same amount of income for life if single lifetime income is elected.⁹ See the prospectus for complete details.

Age at 1st Withdrawal	Withdrawal Rate	AFTER ACCOUNT VALUE REDUCES TO ZERO	
		Single Lifetime Guarantee Rate	Joint Lifetime Guarantee Rate
59½ to less than 65	4.25%	4.25%	3.25%
65 to less than 75	5.25%	5.25%	4.25%
75 to less than 80	5.50%	5.50%	4.50%
80+	6.00%	6.00%	5.00%

All rates are a percentage of the Benefit Base.

Expedite

FlexChoice Access Expedite provides higher withdrawals early in retirement through a higher withdrawal rate. Your lifetime guarantee rate will be lower than your withdrawal rate if your account value is reduced to zero. See the prospectus for complete details.

Age at 1st Withdrawal	Withdrawal Rate	Age When Account Value Is Reduced to Zero	AFTER ACCOUNT VALUE REDUCES TO ZERO	
			Single Lifetime Guarantee Rate	Joint Lifetime Guarantee Rate
59½ to less than 65	5.00%	79 or younger	3.50%	2.50%
		80 or older	3.75%	2.75%
65 to less than 75	6.00%	79 or younger	4.50%	3.50%
		80 or older	4.75%	3.75%
75 to less than 80	6.00%	79 or younger	4.50%	3.50%
		80 or older	4.75%	3.75%
80+	6.75%	79 or younger	N/A	N/A
		80 or older	5.50%	4.50%

All rates are a percentage of the Benefit Base.

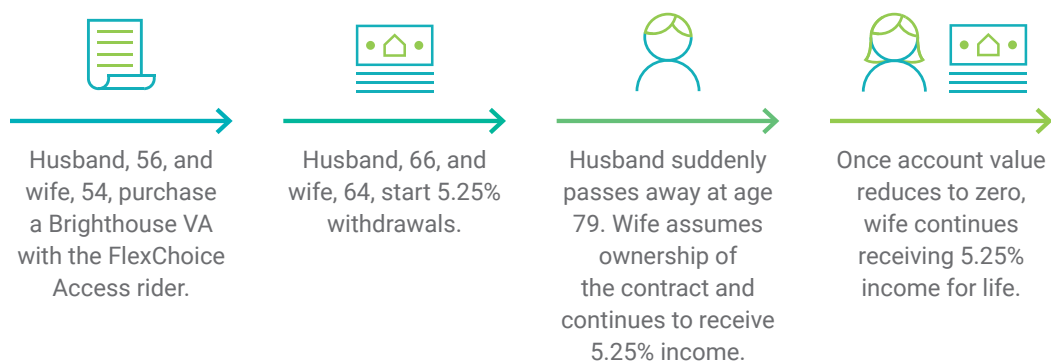

⁹ If FlexChoice Access Level is elected, and the account value is reduced to zero because of market performance or an allowable withdrawal, the rate used to calculate your Annual Benefit Payment will be the same immediately before and after the account value is reduced to zero.

If something unexpected happens, it's important to know that your spouse can continue to receive the income they need in retirement.

With FlexChoice Access, the surviving spouse continues to receive the same income payments they've come to rely on with no interruption even if the account value reduces to zero. See the example below.

FlexChoice Access Level

Hypothetical example for illustrative purposes only.

To see all of the withdrawal rates FlexChoice Access offers, see page 12.

Three Additional Ways FlexChoice Access Provides Flexibility to Married Clients:

- 01 There's no need to choose single or joint lifetime income options at issue.⁷
- 02 The initial withdrawal rate is the same for married and single clients.⁸
- 03 There's no additional charge to cover the spouse.

⁷ This election is only required if the account value reduces to zero. We use the terms "income" and "lifetime income" to refer to any allowable withdrawals under the FlexChoice Access rider, as well as any lifetime income payments you would receive under the rider if your account value reduces to zero.

⁸ The Joint Lifetime Guarantee Rate is only available for spouses. The spouse cannot be more than 10 years younger than the older owner as determined by the birthdays of the two individuals. If a contract is jointly owned, the Joint Lifetime Guarantee Rate is only available for the spouse of the older owner.

Personalized Investment Strategy

One way to help ensure you have enough money to last throughout your retirement is to invest in a portfolio that has the potential to weather a variety of market conditions.

FlexChoice Access offers the opportunity to design an investment strategy that works for you – select from the available asset allocation and risk managed global multi-asset portfolios, or choose to build a more customized portfolio from the individual investment options available. Please refer to our **Investment Worksheet** for more information.

What Else Do I Need to Know About the Rider?

If your needs change, you can cancel the FlexChoice Access rider on the 5th, 10th, or later contract anniversaries.

If you cancel the rider on the 10th or later contract anniversary, and your original account value (adjusted proportionately for withdrawals) has dropped due to market performance, you'll receive a Guaranteed Principal Adjustment (GPA) to your account value.

What happens if you cancel the rider and your account value has decreased?

We bring the account value back to its original amount, which equals purchase payments made in the first 120 days of the contract, adjusted proportionately for withdrawals. Purchase payments made after the first 120 days will not be considered part of the initial investment for GPA purposes, and may impact whether a GPA is due.

Hypothetical example for illustrative purposes only.

Terms and Definitions

Account Value

Initially equals your purchase payment. Represents the value of your investments, adjusted for performance, less withdrawals, fees, and charges.

Annual Benefit Payment

The maximum amount you can withdraw during a contract year without reducing the Benefit Base as well as any lifetime income payments you would receive from the rider if your account value reduces to zero. Prior to age 59½, there is no Annual Benefit Payment.

Benefit Base

Used to determine the maximum amount of withdrawals – known as the Annual Benefit Payment – that you can take in a contract year without reducing benefits, including future lifetime income payments. The annual rider charge is also based off of this amount (the FlexChoice Access Death Benefit charge is based off of the Death Benefit Base). The Benefit Base is not available for withdrawal as a lump sum or payable as a death benefit.

Guaranteed Principal Adjustment

If you cancel the rider on the 10th or later contract anniversary and your account value has decreased due to market performance, we will bring your account value back to its original amount, which equals your purchase payments made in the first 120 days of the contract, adjusted proportionately for withdrawals.

Withdrawal Options

FlexChoice Access offers a choice of two withdrawal options to be made at the time of contract issue. The FlexChoice Access Level withdrawal option offers a level amount of income for life if single lifetime income is elected, both before and after the account value reduces to zero. The FlexChoice Access Expedite withdrawal option lets you withdraw a higher amount up front with a lower Lifetime Guarantee Rate later if the account value reduces to zero.

Minimum/Maximum Issue Age

In order to purchase a variable annuity with the FlexChoice Access rider, the owner (or older owner, if jointly owned) **must be between the ages of 50 and 85 (maximum age is 65 for FlexChoice Access Death Benefit).**

We're Brighthouse Financial

A new company established by MetLife, our mission is to help people achieve financial security.

Built on a foundation of industry knowledge and experience, we specialize in offering essential annuity and life insurance products designed to help you protect what you've earned and ensure it lasts. Our approach includes a journey toward providing simplicity, transparency, and value – because your future is too important to be hard.

A Brighthouse Financial variable annuity with the optional FlexChoice Access living benefit rider lets you turn a portion of your savings into guaranteed income that lasts for life.

Take the next step toward a retirement portfolio that provides growth and income. Learn more at **brighthousefinancial.com**.

Brighthouse Financial is the brand name for Brighthouse Life Insurance Company, Brighthouse Life Insurance Company of NY, and New England Life Insurance Company.

This brochure is part of a Brighthouse Financial variable annuity kit. It is not intended to be a stand-alone marketing brochure.

Investment Performance Is Not Guaranteed.

This material must be preceded or accompanied by a prospectus for the variable annuity issued by a Brighthouse Life Insurance Company and, in New York only, by Brighthouse Life Insurance Company of NY. Prospectuses for the investment portfolios offered thereunder are available from your financial professional. The contract prospectus contains information about the contract's features, risks, charges, and expenses. Investors should consider the investment objectives, risks, charges, and expenses of the investment company carefully before investing. The investment objectives, risks, and policies of the investment options, as well as other information about the investment options, are described in their respective prospectuses. Please read the prospectuses and consider this information carefully before investing. Product availability and features may vary by state. Please refer to the contract prospectus for more complete details regarding the living and death benefits.

Variable annuities are long-term investments designed for retirement purposes. Variable annuities issued by Brighthouse Life Insurance Company and, in New York only, by Brighthouse Life Insurance Company of NY, have limitations, exclusions, charges, termination provisions, and terms for keeping them in force. There is no guarantee that any of the variable investment options in this product will meet their stated goals or objectives. The account value is subject to market fluctuations and investment risk so that, when withdrawn, it may be worth more or less than its original value, even when an optional protection benefit rider is elected. All contract and rider guarantees, including optional benefits and annuity payout rates, are subject to the claims-paying ability and financial strength of the issuing insurance company. Please contact your financial professional for complete details.

Withdrawals of taxable amounts are subject to ordinary income tax. Withdrawals made before age 59½ may be subject to a 10% federal income tax penalty. Distributions of taxable amounts from a non-qualified annuity may also be subject to the 3.8% Unearned Income Medicare Contribution tax that is generally imposed on interest, dividends, and annuity income if your modified adjusted gross income exceeds the applicable threshold amount. Withdrawals will reduce the living and death benefits and account value. Withdrawals may be subject to withdrawal charges.

Any discussion of taxes is for general informational purposes only, does not purport to be complete or cover every situation, and should not be construed as legal, tax, or accounting advice. Clients should confer with their qualified legal, tax, and accounting advisors as appropriate.

This material should not be interpreted as a recommendation or as fiduciary investment advice by Brighthouse Life Insurance Company, Brighthouse Life Insurance Company of NY, or Brighthouse Securities, LLC.

Variable annuities are issued by, and product guarantees are solely the responsibility of, Brighthouse Life Insurance Company on Policy Form 8010 (11/00) and, in New York only, by Brighthouse Life Insurance Company of NY on Policy Form 6010 (3/07) ("Brighthouse Financial"). All variable products are distributed by Brighthouse Securities, LLC (member FINRA). All are affiliated companies. MetLife is a registered service mark of Metropolitan Life Insurance Company (with its affiliates, "MetLife"), and is used under license to Brighthouse Services, LLC, and its affiliates. Brighthouse Financial and MetLife are not affiliated and product guarantees are not backed by MetLife.

Brighthouse Financial® and its design are registered trademarks of Brighthouse Financial, Inc. and/or its affiliates.
